AGREEMENT AS TO RESOLUTION OF CONCERNS

"I", "Patient/Guardian" shall be understood to mean _____.

"Physician" shall be understood to mean **Lavinia K. Chong, M.D.**

I understand that I am entering into a contractual relationship with Physician for professional care. I further understand that meritless and frivolous claims for medical malpractice have an adverse effect upon the cost and availability of medical care to patients and may result in irreparable harm to a medical provider. As additional consideration for professional care provided to me by the Physician, I, the Patient/Guardian, agree not to initiate or advance, directly or indirectly, any meritless or frivolous claims of medical malpractice against the Physician.

Should I initiate or pursue a meritorious medical malpractice claim against Physician, I agree to use as expert witnesses (with respect to issues concerning the standard of care), only physicians who are board certified by the American Board of Medical Specialties in the same specialty as the Physician. Further, I agree that these physicians retained by me or on my behalf to be expert witnesses will be members in good standing of the ***American Board of Plastic Surgery.***

I agree the expert(s) will be obligated to adhere to the guidelines or code of conduct defined by the ***American Board of Plastic Surgery*** and that the expert(s) will be obligated to fully consent to formal review of conduct by such society and its members.

I agree to require any attorney I hire and any physician hired by me or on my behalf as an expert witness to agree to these provisions.

In further consideration, Physician also agrees to exactly the same above-referenced stipulations.

Each party agrees that a conclusion by a specialty society affording due process to an expert will be treated as supporting or refuting evidence of a frivolous or meritless claim.

Patient/guardian and Physician agree that this Agreement is binding upon them individually and their respective successors, assigns, representatives, personal representatives, spouses and other dependents.

Physician and Patient/guardian agree that these provisions apply to any claim for medical malpractice whether based on a theory of contract, negligence, battery or any other theory of recovery.

Patient/guardian and Physician acknowledge that monetary damages may not provide an adequate remedy for breach of this Agreement. Such breach may result in irreparable harm to Physician's reputation and business. Patient/guardian and Physician agree in the event of a breach to allow specific performance and/or injunctive relief.

Patient/guardian acknowledges that he/she has been given ample opportunity to read this agreement and to ask questions about it.

MUTUAL AGREEMENT TO MAINTAIN PRIVACY

Lavinia K. Chong, M.D. (collectively labeled "*Physician"*) agree to provide treatment to:_____("Patient"). The Physician takes pride in being able to extend a greater degree of privacy than is required by law.

Federal and State privacy laws are complex. Unfortunately, some medical offices try to find loopholes around these laws. For example, physicians are almost always forbidden by law from receiving money for selling lists of patients or medical information to companies to market their products or services directly to patients without authorization. Even after recent Congressional attempts to tighten this restriction, however, there are still loopholes that some medical practices can use to profit from marketing activities. For example, there are exceptions for drugs currently prescribed to the patient and for recommending items or services covered by the patient's health plan. More importantly, there is no prohibition against a physician putting his patient on the spot and asking for permission to allow third parties access to information to market to patients, which could authorize essentially unlimited unwanted marketing information. Even to the extent still allowed, Physician agrees not allow others access to use Patient's medical information for the purpose of marketing directly to Patient. Regardless of legal privacy loopholes, Physician will never attempt to leverage its relationship with Patient by seeking Patient's permission for a third party to market directly to Patient.

We want your feedback. If our office gets it right, tell us. If we could do something better, tell us. We take quality improvement seriously. While there are scores of "rating sites" in cyberspace, many fail to provide useful information. Let's get it done right. We can make recommendations as to which sites follow minimum standards for fairness and balance. Just ask us.

Physician has invested significant financial and marketing resources in developing the practice. Nothing in this Agreement prevents a patient from posting commentary about the Physician - his practice, expertise, and/or treatment - on web pages, blogs, and/or mass correspondence. In consideration for treatment and the above noted patient protection, if Patient prepares such commentary for publication on web pages, blogs, and/or mass correspondence about Physician, the Patient exclusively assigns all Intellectual Property rights, including copyrights, to Physician for any written, pictorial, and/or electronic commentary. This assignment shall be operative and effective at the time of creation (prior to publication) of the commentary. Importantly, Physician agrees to abide by a Code of Internet Ethics. What that means: Physician agrees to enforce no rights enabled by the assignment if Patient's commentary conforms to typical Internet Rating Sites' Terms of Use (such as Google Maps –see http://www.google.com/help/terms_maps_earth.html). Such terms include, as examples, no obscenity, no personal attacks, and the like. To be clear, constructive commentary, even if negative, helps us build a better practice. The Code of Internet Ethics encourages posting of all constructive commentary, good, neutral, and even, negative.

This Agreement shall be in force and enforceable for a period of five years from Physician's last date of service to Patient. As a matter of office policy, Physician is requiring all patients in its practice sign the Mutual Agreement so as to establish that any anonymous or pseudonymous publishing or airing of commentary will be covered by this agreement for all Physician's patients. Further, this Agreement will survive for a minimum of three years beyond any termination of the Physician-Patient relationship.

Patient and Physician acknowledge that breach of this Agreement may result in serious, irreparable harm. Patient and Physician agree to the right of equitable relief (including but not limited to injunctive relief). Should a breach of this Agreement result in litigation, the prevailing party in the litigation shall be entitled to reasonable costs, expenses, and attorney fees associated with the litigation.

Patient has been given the opportunity to ask questions and receive satisfactory and adequate explanations.
